- 2) Add kitten 2's mass to the line graph using the following data.

Week	1	2	3	4	5	6	7	8	9	10	11	12
Mass of kitten 2 (g)	400	750	1000	1200	1300	1350	1450	1500	1600	1700	1800	1850

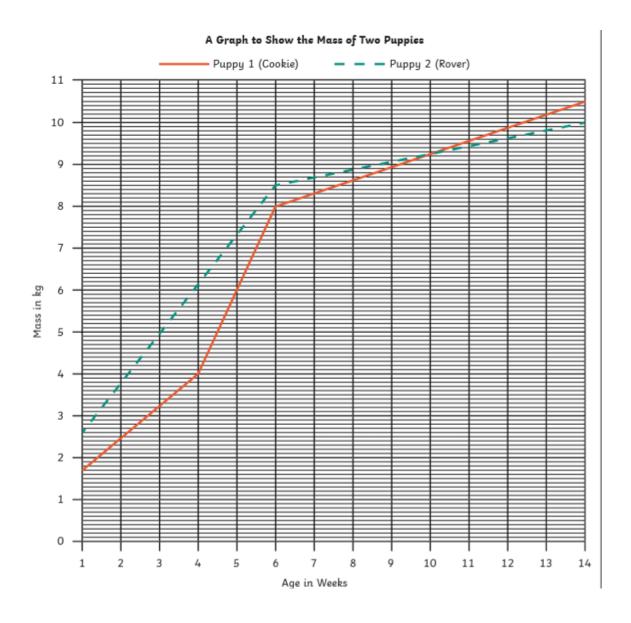

Age in Weeks

Deeper

1)	α)	At what	ages	did	each	рирри	reach	6kg?
----	----	---------	------	-----	------	-------	-------	------

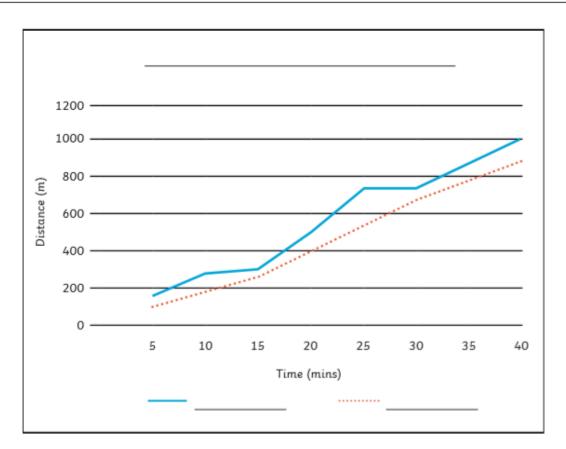

- b) What is the combined mass of the puppies at 8 weeks old? _____
- c) What is the difference between the combined mass of the puppies at week one and the combined mass of the puppies at 14 weeks?
- d) What is the total mass gained by both puppies from week 1 to week 6? _____

<u>Deepest</u>

1) What pet-related activity could this show?

Label the key to show what the two lines represent and add a title.

2) Write a story to match the blue line on the graph.
