

Class 1 :

Ask me about....

Reminders and Upcoming Events

Monday 20th January- Visit from the Royal lifeboat Association

Suggested Activities:

I have compiled a short list of activities to support and extend your child's learning . These are not compulsory, however if you would like to complete these at home, I look forward to seeing and celebrating your child's home learning.

- Adding groceries together.
- Number hunt

This week.....

- We have had a great week. We had a visit from Ayla's dad and his colleagues. We learnt about what to do if there was a fire and we had lots of fun using the fire hose.
- We had a visit from Sophia who works as a Nurse in the Accident and Emergency Department. She taught us how to make a sling and to use a bandage. We had lots of fun putting bandages on each other.
- We have been creating lots of construction models inspired by the Emergency Services.
- In Maths we have been consolidating finding one more and are beginning to add two numbers together up to ten.
- In PE , we have been developing our ball skills. We have been passing the ball in pairs; throwing and catching the ball.
