

# Thursday Maths - Capacity

## How much capacity have I used?...

1. You are going to use different containers and capacity to create your potion
2. You are going to talk about the capacity of each container.
3. You are going to record your learning on capacity, to make instructions.
4. Remember be precise with your measurements

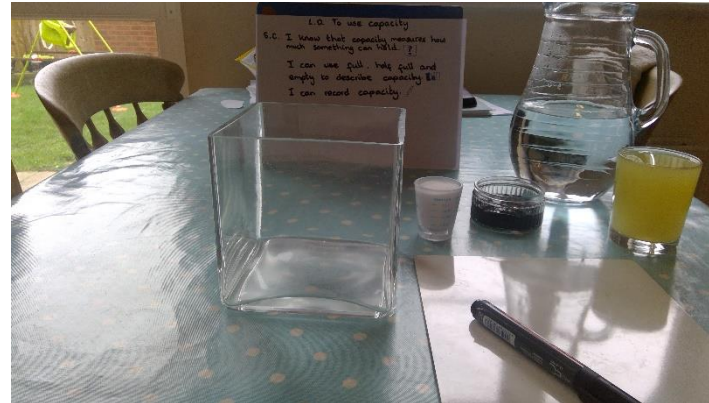

**LO:** To use capacity  
**SC:** I know that capacity measures how much something can hold.

I can use full, half full and empty.

I can record capacity.

## Key Questions

- What is the capacity of each ingredient in the container?
- Which are the same/different?
- Can you tell me the capacity you have used?
- Can you tell me which had the biggest/smallest capacity?

## Capacity Video

Please watch Mrs Ryan's video on capacity

## What is coming up?

Tomorrow you will be...  
reflecting on your learning about capacity  
having a go at some capacity questions  
making another potion

## Key words

capacity  
cups  
full  
half full  
empty

### Chilli Challenge

Can you change the containers that you have used but with the same quantities to see what happens  
e.g. if I have used half a jug of water change it to half a mug of water  
I used a full cup of milk and will change it to a full bottle of milk

What did you notice?
