

Year 1 Repeated Addition

Here is my example:

There are 3 bags of apples. Each bag has 10 apples. How many apples are there in total?

$$10 + 10 + 10 = 30$$

$$3 \times 10 = 30$$

There are 4 packets of candles. Each packet has 5 candles. How many candles are there in total?

There are 8 bunches of flowers. Each bunch has 2 flowers. How many flowers are there in total?

There are 3 packets of lollipops. Each packet has 5 lollipops. How many lollipops are there in total?

There are 7 bags of apples. Each bag has 10 apples. How many apples are there in total?

There are 6 packets of candles. Each packet has 5 candles. How many candles are there in total?

There are 8 bunches of bananas. Each bunch has 10 bananas. How many are there in total?

There are 6 bunches of flowers. Each bunch has 10 flowers. How many flowers are there in total?

There are 4 bunches of flowers. Each bunch has 2 flowers. How many flowers are there in total?

There are 9 packets of lollipops. Each packet has 5 lollipops. How many lollipops are there in total?

There are 5 bags of apples. Each bag has 10 apples. How many apples are there in total?

Year 1 Repeated Addition Extension Questions

There are 10 bunches of flowers. Each bunch has 2 flowers. How many flowers are there in total?

There are 2 packets of candles. Each packet has 5 candles. How many candles are there in total?

There are 5 bunches of flowers. Each bunch has 2 flowers. How many flowers are there in total?

There are 8 packets of lollipops. Each packet has 5 lollipops. How many lollipops are there in total?
