

Unique Antarctica: tailor-made cruises to Earth's final frontier

The frozen wilderness of Antarctica is one of the planet's last remaining natural frontiers. Its hostility, isolation and sweeping beauty command respect - over 14 million square kilometres of harsh, snowy expanse and towering sheets of ice ringed with ocean, and providing a wondrous natural habitat for a wide array of wildlife.

As you follow in the footsteps of Shackleton and the *Endurance*, you'll encounter immense, deafeningly loud colonies of penguin on the pack ice, seabirds clinging precariously to the edges of cliffs, elephant seal and orca doing battle in the freezing waters, and you'll discover just how brilliant white can be.

When you cruise Antarctica with us, you'll journey to the very ends of the Earth. Some cruises to Antarctica visit the sparsely populated Falklands, others stop off at historic South Georgia, but all venture to the farthest-flung reaches of the Antarctic Peninsula.

Themed cruises allow you to focus on interest areas such as climate change, family adventure or photography. On hand in this inhospitable terrain will be our expert guides and team to ensure you live the good life as you navigate the pack ice on your comfortable, stylish vessel.

We have over 25 years of experience in organising successful Antarctic expeditions, negotiating these barren polar wastelands and glacier-carved coves. There's no better way to explore this ridiculously photogenic and endlessly fascinating landscape than one of our unique Antarctica cruise holidays - the perfect blend of luxury, adventure and epic scenery.
