

Can you find half of each of these numbers?

1. $\frac{1}{2}$ of 2 =

2. $\frac{1}{2}$ of 6 =

3. $\frac{1}{2}$ of 4 =

4. $\frac{1}{2}$ of 8 =

5. $\frac{1}{2}$ of 14 =

6. $\frac{1}{2}$ of 20 =

7. $\frac{1}{2}$ of 16 =

8. $\frac{1}{2}$ of 24 =

Can you find a quarter of each of these numbers?

9. $\frac{1}{4}$ of 4 =

10. $\frac{1}{4}$ of 20 =

11. $\frac{1}{4}$ of 12 =

12. $\frac{1}{4}$ of 24 =

Now, find a third of these numbers:

$\frac{1}{3}$ of 18 =

$\frac{1}{3}$ of 21 =

$\frac{1}{3}$ of 9 =

$\frac{1}{3}$ of 30 =

Challenge – how could we work out what two quarters ($\frac{2}{4}$) is of these numbers?:

12

24

30
