

Tuesday 28th April

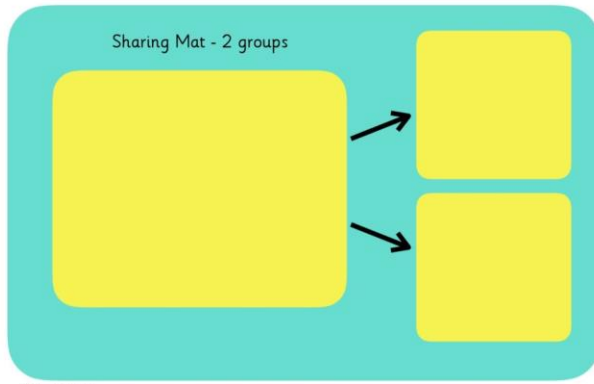

I can describe sharing as giving out fairly

I know sharing means to give things out equally and fairly

I can share a group of objects in half

Half means two equal groups

Key vocabulary

half
equal
same
groups

Activity ideas...

Can you count out a group of objects (4,6,8 or 10) – it could be marbles, lego blocks, raisins, grapes etc...

Now can you share them into two groups.

You could use photographs or drawings to show your answer.

Can you write the number in each group?
