

I can identify angles as acute or obtuse.

Colour right angles GREEN

Colour obtuse angles **BLUE**

Quadrilateral Angles

I can compare angles in 2D shapes.

Sort the quadrilaterals into groups based on their acute angles.

0 acute angles	1 acute angle	2 acute angles	3 acute angles

Quadrilateral Angles

I can classify 2D shapes using the property of an angle.

Sort the quadrilaterals into the correct place on the Venn diagram.

2 Acute Angles

Pair of Parallel Lines

Quadrilateral Angles
